R Street Institute statement on the introduction of the E-FRONTIER Act

WASHINGTON (July 25, 2018) – The R Street Institute today expressed support for the Eliminate From Regulators Opportunities to Nationalize The Internet In Every Respect Act (E-FRONTIER Act), introduced by U.S. Sens. Ted Cruz (R-Texas) and Catherine Cortez Masto (D-Nev.).

“Nationalizing the 5G network is anti-innovation and it won’t enhance security,” said R Street Senior Fellow, Paul Rosenzweig. “I seriously doubt that the public will support creation of a U.S. owned 5G network when it will be immediately characterized as ‘the NSA’s network.’ Congress is wise to reject this poor idea.”
